Overview

AcuCheck is a comprehensive identity verification platform designed to streamline document processing, face recognition, and liveness detection. Built with modern web technologies, it provides a secure, user-friendly interface for identity verification workflows.

Key Features

-  **Multi-Factor Authentication** - Password and OTP-based login
-  **Document Processing** - Support for passports, driver licenses, and ID cards
-  **Face Recognition** - Advanced biometric verification
-  **Liveness Detection** - Video-based anti-spoofing technology
-  **Phone Verification** - SMS OTP verification
-  **Dynamic Configuration** - Real-time system settings management
-  **Role-Based Access Control** - Granular permission management

Getting Started

System Requirements

- Browser:** Chrome 90+, Firefox 88+, Safari 14+, Edge 90+
- Camera:** Webcam for face recognition and liveness detection
- Microphone:** For audio verification (optional)

- **Internet:** Stable connection for real-time processing

First-Time Setup

1. Access the Platform

- Navigate to your AcuCheck instance
- You'll be redirected to the login page

2. Initial Login

- Use your provided credentials
- Choose your role (Admin or Operator)
- Select authentication method (Password or OTP)

3. Dashboard Overview

- Familiarize yourself with the sidebar navigation
 - Review available features based on your role
 - Check system status and configuration
-

Authentication

Login Methods

AcuCheck supports two authentication methods for enhanced security:

Password Authentication

1. Enter your username or email
2. Enter your password
3. Select your role from the dropdown
4. Click "Login"

OTP Authentication

1. Enter your username or email
2. Click "Login with OTP"
3. Check your email for the 6-digit OTP
4. Enter the OTP in the verification field
5. Select your role from the dropdown
6. Click "Login with OTP"

Password Reset

If you forget your password:

1. Click "Forgot Password?" on the login page
2. Enter your email address
3. Click "Send OTP"

4. Check your email for the reset OTP
5. Enter the OTP in the verification field
6. Enter your new password
7. Confirm your new password
8. Click "Reset Password"

Session Management

- Sessions automatically expire after inactivity
 - You can manually logout using the logout button in the top-right corner
 - Multiple login attempts may temporarily lock your account
-

Identity Verification Process

Step-by-Step Verification Workflow

1. Document Upload

- **Supported Formats:** JPG, PNG, PDF
- **Document Types:** Passports, Driver Licenses, ID Cards
- **File Size:** Maximum 10MB per file

Process:

1. Navigate to the Verification page
2. Click "Upload Document" or drag and drop files
3. Select document type if prompted
4. Wait for automatic document analysis
5. Review extracted information

2. Face Recognition

- **Requirements:** Clear, well-lit photo
- **Format:** JPG, PNG
- **Size:** Maximum 5MB

Process:

1. Upload a clear photo of the person
2. System automatically extracts facial features
3. Face is compared against document photo
4. Confidence score is displayed

3. Liveness Detection

- **Duration:** 10 seconds
- **Requirements:** Good lighting, stable camera
- **Audio:** Speak the displayed phrase clearly

Process:

1. Click "Start Liveness Check"
2. Position your face in the camera view
3. Read the displayed phrase aloud
4. Maintain eye contact throughout the recording
5. Wait for processing and verification

4. Phone Verification

- **Supported Countries:** USA, Canada, India
- **Format:** 10-digit phone number
- **OTP:** 6-digit verification code

Process:

1. Select your country code
2. Enter your 10-digit phone number
3. Click "Get OTP"
4. Enter the 6-digit OTP received via SMS
5. Click "Verify OTP"

Verification Results

After completing all steps, you'll see:

- ☒ **Document Verification Status**
- ☒ **Face Recognition Confidence Score**
- ☒ **Liveness Detection Result**
- ☒ **Phone Verification Status**
- ☒ **Overall Verification Status**

Document Management

Supported Document Types

Document Type	Supported Formats	Features
Passport	All major countries	OCR extraction, face detection
Driver License	US States, Canadian Provinces	Field extraction, validation
ID Card	Government-issued	Data verification, photo matching

Document Processing Features

- **Automatic Field Extraction:** Name, date of birth, document number
- **Face Detection:** Automatic extraction from documents
- **Data Validation:** Cross-reference with government databases
- **Quality Assessment:** Blur detection and image quality scoring

Best Practices for Document Upload

1. Image Quality

- Ensure good lighting
- Avoid shadows and glare
- Use high-resolution camera
- Keep document flat and unwrinkled

2. Document Positioning

- Capture entire document
- Ensure all text is readable
- Avoid cutting off edges
- Keep camera steady

3. File Format

- Use JPG or PNG for photos
- Use PDF for scanned documents
- Ensure file size is under 10MB
- Check image resolution (minimum 300 DPI)

Configuration Management

Accessing Configuration (Admin Only)

1. Navigate to "Manage Configuration" in the sidebar
2. Review current system settings
3. Modify feature flags as needed
4. Save changes

Available Configuration Options

Setting	Description	Default	Impact
Store ID and License Photos	Save uploaded documents	Enabled	Storage usage, compliance
Store Video	Save liveness videos	Enabled	Storage usage, audit trail
Store Extracted Faces	Save face images	Enabled	Storage usage, analysis
AES Encryption Key	File encryption	Masked	Security, data protection

Configuration Best Practices

- **Regular Reviews:** Check settings monthly
- **Backup Before Changes:** Document current settings
- **Test Changes:** Verify functionality after updates
- **Monitor Storage:** Track disk space usage

User Roles & Permissions

Role Overview

Admin Role

Full system access including:

- ☒ Identity verification
- ☒ Document management
- ☒ Configuration management
- ☒ User management
- ☒ System monitoring
- ☒ Verification logs

Operator Role

Limited access for verification tasks:

- ☒ Identity verification
- ☒ Document processing
- ☒ Basic reporting
- ☒ Configuration changes
- ☒ User management

Permission Matrix

Feature	Admin	Operator
Verification	☒	☒
Document Upload	☒	☒
Face Recognition	☒	☒
Liveness Detection	☒	☒
Phone Verification	☒	☒
Configuration	☒	☒
User Management	☒	☒
Verification Logs	☒	☒

Role Selection

- Choose your role during login
- Your session is limited to selected role permissions
- Contact your administrator to change roles
- Multiple roles can be assigned to one user

Troubleshooting

Common Issues & Solutions

Login Problems

Issue: "Invalid credentials" error **Solutions:**

- Check username/email spelling
- Verify password is correct
- Ensure caps lock is off
- Try OTP login method

Issue: OTP not received **Solutions:**

- Check spam/junk folder
- Verify email address is correct
- Wait 5 minutes before requesting new OTP
- Contact support if issue persists

Document Upload Issues

Issue: "File too large" error **Solutions:**

- Compress image before upload
- Use lower resolution camera
- Convert to JPG format
- Ensure file is under 10MB

Issue: "Unsupported document type" **Solutions:**

- Verify document is government-issued
- Check document is not expired
- Ensure all text is visible
- Try different lighting conditions

Face Recognition Issues

Issue: "No face detected" **Solutions:**

- Ensure face is clearly visible
- Improve lighting conditions
- Remove glasses if possible
- Position face in center of frame

Issue: "Low confidence score" **Solutions:**

- Use high-quality camera
- Ensure good lighting
- Remove obstructions (hats, masks)
- Try different angle

Liveness Detection Issues

Issue: "Recording failed" **Solutions:**

- Grant camera permissions
- Check camera is working
- Ensure stable internet connection
- Try refreshing the page

Issue: "Phrase not recognized" **Solutions:**

- Speak clearly and slowly
- Reduce background noise
- Ensure microphone is working
- Repeat the phrase if needed

Phone Verification Issues

Issue: "Invalid phone number" **Solutions:**

- Enter exactly 10 digits
- Select correct country code
- Remove spaces and special characters
- Verify number is active

Issue: "OTP not received" **Solutions:**

- Check SMS inbox
- Verify phone number is correct
- Wait 2-3 minutes for delivery
- Try requesting new OTP

Browser Compatibility

Browser	Version	Status	Notes
Chrome	90+	☒ Full Support	Recommended
Firefox	88+	☒ Full Support	Good
Safari	14+	☒ Full Support	Good
Edge	90+	☒ Full Support	Good

Performance Optimization

- **Close unnecessary tabs** to free up memory
- **Use wired internet** for better stability
- **Restart browser** if experiencing issues
- **Clear browser cache** if problems persist

Best Practices

Security Guidelines

1. Password Security

- Use strong, unique passwords
- Never share credentials
- Logout after each session
- Enable 2FA if available

2. Data Protection

- Don't share verification screenshots
- Use secure networks only
- Report suspicious activity
- Follow company security policies

3. Privacy Compliance

- Only process authorized documents
- Respect data retention policies
- Handle personal data carefully
- Report data breaches immediately

Verification Best Practices

1. Document Quality

- Use high-resolution images
- Ensure good lighting
- Keep documents flat
- Avoid shadows and glare

2. Face Recognition

- Use clear, recent photos
- Ensure face is well-lit
- Remove accessories if possible
- Maintain neutral expression

3. Liveness Detection

- Find quiet environment
- Ensure good lighting
- Speak clearly and naturally
- Follow on-screen instructions

4. Phone Verification

- Use active phone number
- Keep phone nearby

- Enter number carefully
- Check SMS promptly

Workflow Optimization

1. Batch Processing

- Group similar verifications
- Prepare documents in advance
- Use consistent lighting setup
- Maintain organized workspace

2. Quality Control

- Review results carefully
- Flag suspicious documents
- Document any issues
- Follow up on failures

3. Training & Support

- Attend training sessions
- Read system updates
- Practice with test data
- Ask questions when unsure

Support & Contact

Getting Help

Self-Service Resources

- **This User Manual:** Comprehensive guide and troubleshooting
- **In-App Help:** Context-sensitive help within the application
- **FAQ Section:** Common questions and answers
- **Video Tutorials:** Step-by-step walkthroughs

Contact Information

Technical Support

- Email: support@acucheck.com
- Phone: +1 (555) 123-4567
- Hours: Monday-Friday, 9 AM - 6 PM EST

Emergency Support

- After-hours: support@acucheck.com (24/7 monitoring)
- Critical issues: +1 (555) 123-4568

Administrative Support

- Email: admin@acucheck.com
- Phone: +1 (555) 123-4569
- Hours: Monday-Friday, 8 AM - 5 PM EST

Reporting Issues

When reporting issues, please include:

1. Issue Description

- What you were trying to do
- What happened instead
- Error messages received

2. System Information

- Browser and version
- Operating system
- Device type (desktop/mobile)

3. Steps to Reproduce

- Detailed step-by-step process
- Screenshots if helpful
- Time and date of occurrence

4. User Information

- Your username (not password)
- Role and permissions
- Contact information

Feature Requests

To request new features:

1. Submit Request

- Email: features@acucheck.com
- Include detailed description
- Explain business value
- Provide use case examples

2. Review Process

- Requests reviewed monthly
- Priority based on impact
- Development timeline provided
- Status updates sent

Training & Documentation

Available Training

- New user orientation
- Advanced features workshop
- Security awareness training
- Custom training sessions

Documentation Updates

- Manual updated quarterly
- Release notes for each update
- Video tutorials for new features
- Best practices guides

Version History

Current Version: 2.1.0

New Features

- Phone verification with country codes
- Enhanced liveness detection
- Improved document processing
- Dynamic configuration management

Improvements

- Better error handling
- Enhanced security features
- Improved user interface
- Performance optimizations

Bug Fixes

- Fixed login issues
- Resolved document upload problems
- Corrected face recognition accuracy
- Fixed browser compatibility issues
